

"How To Skyrocket Past The #1 Ranked Website On Google For The Term Diet Information ..."

Now that we've analyzed the top ranked website in our niche, we need to do the necessary things to outrank them. As I taught you earlier, **it's not the onpage optimization factors that will give you the biggest change in ranking.**

Remember, onpage factors include:

- Page Title
- Header tags
- alt tags
- meta tags
- bolding, italicizing, and underlining
- Placing keyword in the correct position on the page

While onpage optimization is still something you should do, it's **NOT** what will get you high search engine rankings. It's the **offpage optimization** factors that will.

- **Who links to you and how they do it**

Copy the linking strategy of www.diet-i.com

Now that we know who links to www.diet-i.com (The #1 ranked website) and how they're doing it, we can begin to copy what they're doing.

The goal here is to contact the websites that link to www.diet-i.com and copy the exact linking strategy they're using to get a #1 ranking.

So, how the heck are we going to get hundreds of links pointing to our website, let alone contact all the websites that link to www.diet-i.com and get them to link to us?

Now, you could just visit them all manually and ...

- Search for their contact information.
- Open up your email program.
- Write out an email to this website and send it off to them.
- Then do this another 500 times.

Or you could do this

New project

Step 1: Select the Project Type.

- Analyze backlinks using a specified search engine.
- Find and email high page rank link partners.
- Analyze allinanchor, allintitle or allintext.
- Verify that link partners are still linking back.
- Find where your site is ranked for a given keyword(s).
- Find out how many web pages are indexed.

Step 2: Enter a project name

Diet Information

Step 3: Select how you would like to find Link Partners

Add sites using a competitor's website

Step 4: Enter the competitor's website (ie. www.website.com)

www.diet-i.com

Step 5: Select the search engine(s) you would like to use

Google Google.de Yahoo
 Altavista AlltheWeb MSN

Step 6: Select the maximum number of results

25

Step 7: Select the minimum page rank

[ALL]

Step 8: [Click here](#) to add filters

ok cancel

- Open up SEO Elite
- Select Radio button 2
- Select to find link partners by domain name.
- Enter www.diet-i.com into the textbox
- Select Google from the search engine list
- Click Ok

View the Report View Tab

You'll now need to click over to the report view tab. You'll notice that there are two frames located on this screen.

SEO Elite - Find and email high page rank link partners. (URL: www.diet-i.com)

Status: Completed... Finished 25 of 25 sites (100.00%), working on 0 sites (0 threads wait...

Subject:

Insert variable: -- select from list (case sensitive) --

Send

The top frame lists:

- All of the websites that link to www.diet-i.com.
- The contact information for the website.

- The number of times you've emailed them. (This is good to know, because emailing the same website multiple times can upset some webmasters.)

The top frame lists:

- Create as many email templates as you wish. This way, you only have to write the link request email once!
- Create custom links pages containing the websites you're going to send link request emails to.
Note: It's always best to add their link to your website before you ask them to link to yours. You'll get a much better response this way. SEO Elite allows you to add everyone's link to your website with a single click of a button. It's all automated!
- Blast out emails to thousands of websites at once!

To email more than 1 website at a time, simply click the row in the top frame and it will add the website to your email list. You can literally add thousands of websites to your email list!

From then, all you'll need to do is click "ok" and BAM!

You've just contacted 1,000+ websites at once!

Now, all you have to do is sit back and wait for them to email you back, stating that they've added your link to their website.

You have total control over who links to you and how they do it!

Link Request template

Here's an example link request email that typically works pretty well:

Hello my name is John Smith. I am seeking out possible link partners that our visitors would be interesting in visiting. I've found your website to be a very good fit for our visitors. I have already gone ahead and added your link to our website at: <http://www.domain.com/TheLinksPageCreatedBySEOElite.htm>

I am contacting you to see if it is ok to have done so. Also, I would like to ask if you mind linking back to us? If so, please use the linking details below and send me the location of our link on your website.

Here is our linking details:
Title: (This is the keyword we want to target)
Description: Description here...
URL: <http://www.domain.com>

We've got several PR6 and 7 websites, so we expect this site to become atleast a PR5 within 1 month and will eventually become a 6 or 7 in 2-3 months.

I hope this can be a way for us to benefit our visitors with excellent content. Hope to hear from you soon.

John Smith
www.domain.com

If you do this several times, over the course of a month, I can guarantee you'll rank **VERY** well for nearly any search term, period. It works, and it works extremely well.

Stay tuned for the next lesson, It's a Doozy!

All the best,

Brad Callen
